### HOW TO MEASURE

- For best results, take measurements over undergarments.
- Hold tape measure firmly, not tightly.
- Keep tape measure parallel to the floor.
- Match your measurements to the above size chart. If measurements fall between sizes: order smaller size for tighter fit or the larger size for a looser fit.
- If measurements for chest and waist correspond to two different suggested sizes, order the size indicated by the chest measurement.
- Each material should indicate what silhouette/fit is used (e.g. slim/modern, hockey fit, loose fit), so if it's a slim fit and you normally like a looser fit, you should order up a size.
